

## WEEKLY UPDATE ON ASEAN PLUS THREE FOOD SECURITY RELATED INFORMATION

**No. 62**  
**7 – 13 February 2018**

---

### **Brunei Darussalam**

***Minister of Home Affairs visited the flood-hit areas due to heavy rain of Tutong District on 10 February 2018.*** Flood-hit areas included Mukim Tanjong Maya, Mukim Lamunin and Kampong Layong. Related units helped flood victims by transportation and distribution of relief items and water to affected residents. However, the flood water level was slowly receding.

## Philippines

**Tropical Storm Sanba caused 1,829 affected people of 528 families along with seaport disruption and class suspension across Western Visayas, Eastern Visayas, Northern Mindanao and Caraga regions.** All affected people were staying in 17 evacuation centres in Caraga whereas disrupted seaports and suspended classes were reported in the remaining regions. Related units issued warning to the public and conducted risk assessment of Tropical Storm Sanba. The Department of Social Welfare and Development has stockpiles of 407,871 Family Food Packs worth 137.2 million peso (2.7 million USD). Tropical Storm Sanba still moved west and northwest since it entered the eastern parts of Mindanao Island on 11 February 2018.

\* 1 USD = 51.65 peso

## Thailand

**Related agencies were called for cooperation on water resource management for higher efficiency and sustainability.** Water related units were also asked to integrate public participation into operations for long-term solutions on disasters. Lawmakers are determined to clear red tape in water laws and policies and make sure that all regulations are in accordance with current situations. This reform will finally lead to ecological balance and social disparity reduction.

**Source:** National News Bureau of Thailand (2018, Feb 11). *NLA calls on water related agencies to integrate efforts for sustainability*.

## Viet Nam

**Tropical Storm Sanba is unlikely to cause significant damages on the country due to a cold front that has just moved in.** After crossing Palawan Island in the Philippines, Tropical Storm Sanba will be weakening as it enters the South China Sea before Lunar New Year's Eve. Meanwhile, a cold front is moving down from northern Viet Nam to south-central and southern regions where the storm is forecast to be heading in coming days. There is little chance of Tropical Storm Sanba to grow stronger due to this cold front according to meteorologists.

**Source:** VNEXPRESS (2018, Feb 12). *Storm Sanba forecast to leave Vietnam in peace for Tet*.

## Japan

***The government of Japan will help restore the Sea of Japan coastal region hit by heavy snow last week causing several deaths and 1,500 stranded cars.*** The government will provide grant tax revenue for helping local expenses on snow removal and gas distribution in hardest-hit Fukui Prefecture. The government will set up a research panel aiming at increasing effectiveness of snow removal for preventing major congestion. Snow impacted some 500 farming facilities and barns in Hokkaido and the Hokuriku region including Fukui and Ishikawa Prefectures but local officials have yet to determine financial damages.

## Republic of Korea

***The 4.6-magnitude earthquake hit Pohang City causing 22 injuries.*** However, injured people did not sustain life-threatening injuries and no damages were reported at the nearby nuclear waste repository. Relevant units were assessing damages and inspecting building of all the city to check for serious damages. This event was believed to be an aftershock of the former 5.4-magnitude earthquake in November 2017.

**Source:** Yonhap News Agency (2018, Feb 11). *(2<sup>nd</sup> LD) Pohang hit by 4.6 magnitude quake, three months after second-strongest quake on record.*
