

WEEKLY UPDATE ON NATURAL DISASTERS IN ASEAN PLUS THREE

No. 440

22 - 28 October 2025

Indonesia

Flooding and landslides wreaked havoc in West Java, Indonesia. Heavy rain accompanied by strong winds rattled Sukabumi district, West Java Province, Indonesia on 27 October 2025, affecting 612 families or 1,835 people. The situation worsened after the riverbank in Cisolok was breached. However, no fatalities or injuries had been reported as data was still being collected. Meanwhile, landslides occurred in several areas, damaging 17 houses and one villages access road. Local authorities quickly provided assistance to those affected. Residents in southern West Java were urged to remain alert to the potential for further disaster.

Malaysia

Nearly 5,000 people evacuated in Malaysia due to flooding. As of 25 October 2025, heavy rain continued to battle the northern peninsula of Malaysia, worsening the flooding situation in the states of Perak, Kedah, and Penang. The number of evacuees at relief centres rose to 4,743, including 2,806 people from 955 families in Perak, 928 people from 252

families, and 1,009 people from 312 families in Kedah. Several roads in Kuala Muda were also flooded.

Thailand

Prolonged flooding severely affected Thailand. As of 26 October 2025, floods had continually affected 456,096 people from 132,995 families in 15 provinces across Thailand. The death toll stood at 13, including one in Phitsanulok Province, one in Phichit Province, and 11 in Ayutthaya Province. Local authorities had delivered assistance to those affected.

Viet Nam

Torrential rainfall forced mass evacuations in Viet Nam. Continuous heavy rain submerged Viet Nam's central coastal region, triggering flooding and landslides. Since 25 October 2025, more than 8,600 people across four central provinces had been evacuated to schools and other public facilities for safety. Several schools in Hue and Da Nang cities were closed, while the former imperial city of Hue, a UNESCO World Heritage Site, was inundated. Rainfall in Hue was recorded from 1 to 1.7 metres within a 24-hour period from 26 to 27 October 2025. Meanwhile, around 1,700 people in Quang Ngai province were isolated, and crops were damaged. The railway from the northern and southern regions was disrupted.
